

# Catalogue Codes

---

Although possible, little or no catalogue code maintenance should be required. The catalogue codes affect the way in which information from a catalogue enquiry is presented.

Options include:

- Description Codes
- Medium Codes
- Package codes
- Price Codes
- Label Codes
- Chart Types

Maintenance to the Catalogue Codes will be automatically performed via catalogue updates..

## ***Description Codes***

Description codes facilitate the transfer of catalogue data.

## ***Medium Codes***

Medium codes distinguish between the various formats of product available within the catalogue database.

## ***Package Codes***

Package codes describe in detail any additional features of the product that may differentiate from the standard release.

## ***Price Codes***

Price Codes interpret pricing data .

## ***Label Codes***

Label codes denote individual Record Company Labels.

## ***Chart Types***

Australian Record Industry Association (ARIA) chart codes.
